Various music bots can find songs on YouTube, Spotify or other platforms and play them on discord's sound channel. If you join the sound channel, you can listen to a song on Discord. This provides a great way to share new music with friends, host listening parties, or provide background music. However, with so many Discord music bots available, it can be difficult to know which one to add to your server. If you need help with this decision, this article is for you. Continue reading to compare 5 of the best Discord music robots. You'll also learn how to play music in Discord and how to add music bots

to Discord. Choosing the best contentious music bot 1. Groovy The Discord Groovy bot is a popular music bot, and there are a variety of cool bot commands. With the Groovy Music Bot, you can play songs using links on a website or upload files or search for specific songs. You can also create a song queue. Within this queue, you can skip songs, return to songs we've achieved before, jump to a particular song, clear the queue, mix or loop in a specific queue or track. Finally, you can search for the lyrics to the song. You can also pay for a Premium Music Groovy bot to access additional features such as volume control, audio effects, saved queues, and 24/7 gameplay. The premium bot costs \$3.99 per month for one server. 2. Octave Octave is another popular discord music bot with premium and free features. The Octave Discord bot can play songs from YouTube and Soundcloud, create queues, and even create playlists that you can listen to again later. Within queues and playlists, you can skip songs, point as Skip song or not, jump into song, and stir. There are also playlist-specific commands that tell you to create, delete, or edit them, list your playlists, or upload a playlist from another site. You can also search for the lyrics to your song. Octave Bot Premium opens volume, filters, bass boost, unlimited custom playlists, and longer track length and queue sizes. For \$5/month, you can get the above on one server along with 6-hour track lengths and a queue size of 500. For \$10/month, you can get a premium on two servers with 12-hour track lengths and unlimited queue size. 3. Hydra Hydra is a new Discord music bot with a large selection of streaming platforms from. with Hydra Discord bot, you can stream songs from YouTube, Soundcloud, Spotify, Deezer, or Bandcamp. Hydra is Spotify's best robot. You can also upload audio files to play or stream an online radio. Hydra allows you to create queues and playlists and skip, point, loop, move a song within a queue or at the front of the queue, re-mix songs, or reactivate songs. You can also search for lyrics or song information. Finally, hydra bot includes only admin commands that allow you to announce which song is playing, change the set language, ban specific users from using the bot, limit how many times a song can be played, limit Hydra to specific vocal channels, and set who DJs bot and controls the queue. Hydra Premium adds volume control, audio effects, 24/7 playback, and unlimited saved playlists. You can purchase a Hydra premium for a user or server. User premium allows you to use Hydra bot premium features on any server you are a member of for \$1.99 per month or \$19.99 per year. The server premium includes the same features as a user premium along with the ability to unlock all premium features for a server of your choice. It costs \$2.99 per month or \$29.99 per year for one server. 4. Chip chip is the best free music bot for Discord. It includes the same standard commands as other music bots, allowing users to play songs from YouTube, Vimeo, SoundCloud, Mixer, Twitch and Bandcamp and create queues. You can skip, loop, mix, move, and rewind songs in the queue. You can also fast-forward to a specific part of a track. Chip also displays lyrics to songs and can create a .txt phone that lists all the tracks in the queue. Best, chip includes free audio control features! With a chip, you can use bass amplification, equalizer, treble boost, voice boost, and change the volume of the track. Finally, you can use a chip to listen to the radio; The bot includes a list of 180 stations from around the world that you can choose from. Chip also includes premium features, although unlike other bots, all core features can be accessed for free. A chip premium costs \$5 per month and you're allowed to use 24/7 mode, bypass voting locks (so you can change audio effects without the rest of the channel pointing to it), and ignore command cooling (so you can use the same command over and over again). 5. MEE6 MEE6 is a top dispute moderation bot, but did you know Can you play music on controversy too? The MEE6 music bot is unique in that you can use a visual player on your dashboard to control your music. Instead of entering a series of commands on the server, just get on your online dashboard to view your turn, manage playlists and search for songs, play and rewind. You can also control volume, record sound channels, and play music 24/7. MEE6 supports music from YouTube, SoundCloud and Twitch. The bot also includes a fun music quiz that lets you challenge your friends to see who can guess the song and the artist from the fastest clip. However, the above features are only available on MEE6 Premium. You can purchase a lifetime plan for one server for a flat fee of \$79.90. Or instead, you can buy a monthly plan for \$11.95 a month. You can also save money a month by purchasing a plan for 6 months or a year. Which Discord music bot is best for me? The answer to this question will depend on what you need, as each music bot has unique features. MEE6 is the easiest to use with its music dashboard, though you'll have to pay to access it. Chip is the best free music bot as it is the only one to provide free audio effects. Hydra and Chip provide the widest selection of streaming music platforms as well as radio. Specifically, The Hydra Bot is the best Spotify bot for Discord. Hydra also includes the best management controls you can decide who can use the bot and which channels it can access. Groovy and Octave are more basic bots in terms of features, but remain popular due to their ease of use and stability. As Bot Groovy and Bot Octave have been on contention for some time, it's unlikely they'll be cut off. How to add a music bot to a controversy you can add a music bot to a controversy in the same way you would add any divisive bot. Just find the bot on its website or a list of bots like top.gg, invite it to your server, and approve its orders.
